^{*}Other Engineer's Services must be outlined in detail on the required certified engineer's estimate.

1.3 AVAILABILITY OF LOCAL FUNDS:

Attach a summary from the <u>Chief Financial Officer</u> listed in section 5.2 listing <u>all local share funds</u> budgeted for the project and the date they are anticipated to be available.

2.0 PROJECT INFORMATION

IMPORTANT: If project is multi-jurisdictional, information must be consolidated in this section.

- 2.1 PROJECT NAME: <u>STORM SEWER REHABILITATION</u>
- 2.2 BRIEF PROJECT DESCRIPTION (Sections a through d):
 - a: SPECIFIC LOCATION:

SPRINGFIELD TOWNSHIP — Brentwood South Subdivision, Section B Project extends from future Cross County Highway (approximately 475' East of Mockingbird Lane), Northward to Thunderbird Drive, then Westward to approximately 150' West of Mockingbird Lane.

PROJECT ZIP CODE: 45231

b: PROJECT COMPONENTS:

- a) 48" diameter replacement sewer (Fiberglass or Polyethylene), annular voids to be grouted.
- b) 36" diameter relief sewer (reinforced concrete).
- c) Access pits for replacement sewer (four total), manholes, catch basins, catch basin laterals, headwalls, etc.
- d) Restoration of roads, curbs, sidewalks, yards, etc.
- e) Relocation or replacement of water, sanitary sewer, & gas utilities as necessary.

c: PHYSICAL DIMENSIONS / CHARACTERISTICS:

Existing 54" diameter reinforced concrete storm sewer, approximately 985 feet in length has deteriorated significantly, causing major cracking and separation to occur. Primary cracking is occurring in the 12 o'clock and 6 o'clock planes. Proposed 48" replacement sewer to convey primary stormwater flows, with relief sewer conveying surplus flows.

d: DESIGN SERVICE CAPACITY:

IMPORTANT: Detail shall be included regarding current service capacity vs proposed service level. If road or bridge project, include ADT. If water or wastewater project, include both current residential rates based on monthly usage of 7,756 gallon per household.

Attach current rate ordinance.

200 cubic feet per second stormwater flow. Replacement sewer with proposed relief sewer to maintain this flow rate.

2.3 USEFUL LIFE / COST ESTIMATE: Project Useful Life: 50 Years.

Attach <u>Registered Professional Engineer's statement</u>, with <u>original seal and signature</u> certifying the project's useful life indicated above and estimated cost.

3.0 REPAIR/REPLACEMENT or NEW/EXPANSION:

		RTION OF PROJECT REPAIR/ Requested for Repair and Repla		\$ 699,605 \$ 629,645	100% 90%
		RTION OF PROJECT NEW/EX Requested for New and Expansion		\$ \$	% %

	4.2	Bid Advertisement:	11 / 15 /95	12 / 1	5 / 95
	4.3	Construction:	12 / 31 /95	12 /31	/ 96

^{*} Failure to meet project schedule may result in termination of agreement for approved projects. Modification of dates must be approved in writing by the Commission once the Project Agreement has been executed. Dates should assume project agreement approval/release on July 1st. of the Program Year applied for.

6.0 ATTACHMENTS/COMPLETENESS REVIEW:

Check each section below, confirming that all required information is included in this application.

- a) <u>x</u> A certified copy of the legislation by the governing body of the applicant authorizing a designated official to submit this application and execute contracts. (Attach)
- b) x A summary from the applicant's Chief Financial Officer listing all local share funds budgeted for the project and the date they are anticipated to be available. (Attach)
- c) <u>x</u> A registered professional engineer's estimate of projects useful life and cost estimate, as required in 164-1-14 and 164-1-16 of the Ohio Administrative Code. Estimates shall contain engineer's <u>original seal and signature</u>. (Attach)
- d) N/A A copy of the cooperation agreement(s) if this project involves more than one subdivision or district.(Attach)
- e) x Capital Improvements Report: (Required by 164 O.R.C. on standard form)

___A: Attached.

- x B: Report/Update Filed with the Commission within the last twelve months.
- f) N/A Floodplain Management Permit: Required if project is in 100 year floodplain. See Instructions.
- g) <u>x</u> <u>Supporting Documentation:</u> Materials such as additional project description, photographs, economic impact (temporary and/or full time jobs likely to be created as a result of the project), and other information to assist your district committee in ranking your project.

7.0 APPLICANT CERTIFICATION:

The undersigned certifies that: (1) he/she is legally authorized to request and accept financial assistance from the Ohio Public Works Commission; (2) that to the best of his/her knowledge and belief, all representations that are part of this application are true and correct; (3) that all official documents and commitments of the applicant that are part of this application have been duly authorized by the governing body of the applicant; and, (4) should the requested financial assistance be provided, that in the execution of this project, the applicant will comply with all assurances required by Ohio Law, including those involving minority business utilization, Buy Ohio, and prevailing wages.

IMPORTANT: Applicant certifies that physical construction on the project as defined in the application has NOT begun, and will not begin until a Project Agreement on this project has been executed with the Ohio Public Works Commission. Action to the contrary will result in termination of the agreement and withdrawal of Ohio Public Works Commission funding of the project.

DAVID J. KRINGS, COUNTY ADMINISTRATOR

Re: SCIP Application

Storm Sewer Rehabilitation

Hamilton County, Ohio

Dear Mr. Brayshaw:

I hereby certify that the following Engineer's Estimate (attached) for the Hamilton County Storm Sewer Rehabilitation Project has been determined in accordance with generally accepted construction cost and practices within the State of Ohio taking into account the specific climate and other environmental conditions of the infrastructure's site including prevailing wage requirements and other state/local requirements. I also hereby certify that this estimate reflects the design to assure a useful life expectancy of 50 years.

Sincerely,

SAVAGE, WALKER & ASSOCIATES, INC.

D. Walker

Carl D. Walker, P.E.

President

STATUS OF FUNDS REPORT

Project: Storm Sewer Rehabilitation

This is to certify that the sum of \$69,960.00 is available as the local matching funds in connection with the application for State Capital Improvement Funds for the above mentioned project.

The source of the local match will be Hamilton County Funds. Local matching funds are encumbered and will be certified upon completion of the Project Agreement with the Ohio Public Works Commission.

The Board of County Commissioners of Hamilton County, Ohio met in regular session on the 28th day of September, 1994, with the following members present: -All' Present-

COM'RS MIN. YOLL 255 SEP 2 8 1994 IMAGE

RESOLUTION

AUTHORIZING THE COUNTY ADMINISTRATOR TO APPLY FOR ISSUE 2 FINANCIAL ASSISTANCE FUNDS

WHEREAS, it may be advantageous for the County to apply to District No. 2 for Issue 2 Financial Assistance Funds, and

WHEREAS, a single Resolution by this Board will suffice to authorize the Hamilton County Administrator to make any application and execute any contract, deemed economically advantageous by the County.

NOW, THEREFORE, BE IT RESOLVED, by the Board of County Commissioners of Hamilton County, Ohio, that the Hamilton County Administrator be and he hereby is authorized to make application to the Ohio Public Works Commission District No. 2 for Issue 2 Financial Assistance Funds, and

BE IT FURTHER RESOLVED, that this Board of County Commissioners hereby finds and determines that all formal actions relative to the adoption of this Resolution were taken in an open meeting of the Board of County Commissioners and that all deliberations of this Board of County Commissioners and of its committees, if any, which resulted in formal action were taken in meetings open to the public, in full compliance with applicable legal requirements, including Section 121.22 of the Ohio Revised Code.

ADOPTED at a regularly adjourned meeting of the Board of County Commissioners of Hamilton County, Ohio, this 28th day of September, 1994.

Mr. Chabot AYE Mr. Dowlin AYE Mr. Guckenberger AYE

COM'RS MIN. YOU, 255 SEP 28 1994 IMAGE

CERTIFICATE OF CLERK

IT IS HEREBY CERTIFIED that the foregoing is a true and correct transcript of resolutions adopted by the Board of County Commissioners in session the 28th day of September, 1994.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the Official Seal of the Office of the Board of County Commissioners of Hamilton County, Ohio, this 28th day of September, 1994.

Jacqueline Panioto, Clerk

Board of County Commissioners

Hamilton County Ohio

ADDITIONAL SUPPORT INFORMATION

For Program Year 1994 (July 1, 1994 through June 30, 1995), jurisdictions shall provide the following support information to help determine which projects will be funded. Information on this form must be accurate, and where called for, based on sound engineering principles. Documentation to substantiate the individual items may be required by the Support Staff if information does not appear to be accurate.

1)	What is the condition of the be replaced, repaired, or ex a copy of the current State	panded? For bridges, submit	
	Closed	Poor X	
	Fair	Good	
sur: sub: sigl cap: to	sent facility such as: inade face type and width; number of standard design elements such ht distances, drainage stru- acity. If known, give the appro- be replaced, repaired, or expan	e nature of the deficiency of the equate load capacity (bridge) of lanes; structural condition as berm width, grades, curves ctures, or inadequate servicoximate age of the infrastructural is in poor structural	; ; ; ;
	ndition with significant crack	-	_
		957 (presently is 37 years old).	<u></u>
2)	soon (in weeks or months) Agreement from OPWC (tentation the project be under contractive reviewing status reports of	Program funds are awarded, ho after receiving the Projec vely set for July 1, 1994) woul ct? The Support Staff will b previous projects to help judg lar jurisdiction's anticipate	t.d
	Four (4) weeks (months) (Ci	rcle one)	
	Are preliminary plans or engi	neering completed? Yes No	
	Are detailed construction plan	ns completed? Yes No	
	Are all right-of-way and easem	ments acquired?* Yes NO N/	Α

*Please answer the following if applicable:
No. of parcels needed for project: Nine (9) Of these, how
many are Takes <u>Nine (9)</u> , Temporary <u>Nine (9)</u> , Permanent <u>Eight (8)</u>
*On a separate sheet, explain the status of the ROW aquisition process of this project for any parcels not yet acquired.
Are all utility coordinations completed? Yes NO N/
Give an estimate of time, in weeks or months, to complete an item above not yet completed. Three (3) weeks months
*If Easements cannot be negotiated by 3-1-94, they will be established (pursuant to ORC Section 5579.01) by 6-1-95.
How will the proposed project impact the general health, safet and welfare of the service area? (Typical examples may includ the effects of the completed project on accident rates, emergency response time, fire protection, health hazards, use benefits, and commerce.) Please be specific and provide documentation if necessary to substantiate the data.
This project will prevent the potential of the existing 54"
trunk sewer to collapse, causing significant flooding to
adjoining homes, and potentially causing adjoining homes
to settle into the resulting hole. This project will insur
the safe passage of stormwater through the residential development for the next 50 years+.
What type of funds are to be utilized for the local share fo this project?
Federal ODOT Local X
MRF OWDA CD
Other
Note: If MRF funds are being used for the local share, the MRF application must have been filed by August 1, 199 for this project with the Hamilton County Engineer's Office.

3)

4)

	The minimum amount of matching funds for grant projects (local share) must be at least 10% of the TOTAL CONSTRUCTION COST. What percentage of matching funds are being committed to this project?
	<u> </u>
5)	Has any formal action by a federal, state, or local government agency resulted in a complete or partial ban of the use or expansion of use for the involved infrastructure? (Typical examples include weight limits, truck restrictions, and moratoriums or limitations on issuance of building permits.) A copy of the legislation must be submitted with the application. THE BAN MUST HAVE AN ENGINEERING JUSTIFICATION TO BE VALID.
	Complete Ban Partial Ban No Ban X (NotApplicable)
	Will the ban be removed after the project is completed?
	Yes X No No (Not Applicable)
6)	What is the total number of existing users that will benefit as a result of the proposed project?
	Fifty Seven (57) Homes In Immediate Subdivision. X 4 = 228 Residents
Traisubs rest pric	roads and bridges, multiply current <u>documented</u> Average Daily ffic by 1.20. For public transit, submit documentation stantiating the count. Where the facility currently has any trictions or is partially closed, use documented traffic counts or to the restriction. For storm sewers, sanitary sewers, water es, and other related facilities, multiply the number of seholds in the service area by 4.
7)	Has the jurisdiction developed a Five Year Capital Improvement Plan as required in O.R.C., chapter 164? (This must be included with the application to be considered for funding.)
	Yes X No
8)	Give a brief statement concerning the regional significance of the infrastructure to be replaced, repaired, or expanded.
	This storm sewer conveys runoff from a 72.54 acre watershed.
	In addition, a new storm sewer system for the future
	cross county highway is proposed to tie directly into the
	existing 54" at its inlet end, significantly increasing the
	runoff to the sewer.

9)	For expansion projects, please provide the existing and proposed Level of Service (LOS) of the facility using the methodology outlined within AASHTO's Geometric Design of Highways and Streets" and the 1985 Highway Capacity Manual.
	Existing LOS N/A Proposed LOS N/A
	If the proposed LOS is not "C" or better, explain why LOS "C" cannot be achieved. (Attach separate sheets if necessary.)

.

STATE CAPITAL IMPROVEMENT PROGRAM

ROUND NO. 9

PROGAM YEAR 1995 PROJECT SELECTION CRITERIA - JULY 1, 1995 TO JUNE 30, 1996

ADOPTED BY THE DISTRICT 2 INTEGRATING COMMITTEE

June 27, 1994

JURISDICTION	VAGENCY: Ham, CO DEPT. OF PUBLIC WKS.
NAME OF PROJE	ECT: STORM SEWER REHABILITATION (SPRINGFIELD TWP.)
TOTAL POINTS	for this project: 37 47 rating team no. 4
NO. OF POINTS	
ζ.	If SCIP Funds are granted, when would the construction contract be awarded? (The Support Staff will assign points based on engineering experience.)
1	10 Points - Will be under contract by December 31, 1995
	5 Points - Will be under contract by March 30, 1996
	0 Points - Will not be under contract by March 30, 1996
I	What is the condition of the infrastructure to be replaced or repaired? For bridges, base condition on latest general appraisal and condition rating.
1	20 Points - Poor Condition 16 Points - 12 Points - Fair to Poor Condition 8 Points - 4 Points - Fair Condition

NOTE: If the infrastructure is in "good" or better condition it will NOT be considered for SCIP funding.

3) If the project is built, what will be its effect on the facility's serviceability? 5 Points - Significant effect (e.g., widen to and add lanes along entire project) 4 Points - Moderate to significant effect 3 Points - Moderate effect (e.g., widen exist. lanes) 2 Points - Moderate to little effect 1 Points - Little or no effect (e.g., street or bridge deck rehabilitation) 6 4) How important is the project to HEALTH, SAFETY, AND WELFARE of the public and the citizens of the District and/or service area? 10 Points - Highly significant importance, with substantial impact on all 3 factors 8 Points - Considerably significant importance, with substantial impact on 2 factors OR noticeable impact on all 3 factors 6 Points - Moderate importance, with substantial impact on 1 factor or noticeable impact on 2 factors 4 Points - Minimal importance, with noticeable impact on 1 factor 2 Points - No measurable impact 6 What is the overall economic health of the jurisdiction? 5) 10 Points - Poor 8 Points -6 Points - Fair 4 Points -2 Points - Excellent 6) What matching funds are being committed to the project, expressed as a percentage of the TOTAL CONSTRUCTION COST? Loan and Credit Enhancement projects automatically receive 5 points, and no match is required. All grant funded projects require a minimum of 10% matching funds. 5 Points - 50% or more 4 Points - 40% to 49.99%

3 Points - 30% to 39.99% 2 Points - 20% to 29.99% 1 Point - 10% to 19.99%

- 7) Has any formal action by a federal, state, or local government agency resulted in a partial or complete ban of the usage or expansion of the usage for the involved infrastructure? POINTS MAY ONLY BE AWARDED IF THE END RESULT OF THE PROJECT WILL CAUSE THE BAN TO BE LIFTED.
 - 5 Points Complete or significant ban
 - 3 Points Partial or moderate ban
 - O Points No ban of any kind
- 8) What is the total number of existing daily users that will benefit as a result of the proposed project? Appropriate criteria include current traffic counts, households served, when converted to a measurement of persons. Public transit users are permitted to be counted for roads and bridges, but only when certifiable ridership figures are provided.
 - 5 Points 10,000 or more
 - 4 Points 7,500 to 9,999
 - 3 Points 5,000 to 7,499
 - 2 Points 2,500 to 4,999
 - 1 Point 2,499 and under
- 9) Does the infrastructure have REGIONAL impact? Consider origins and destinations of traffic, functional classification, size of service area, number of jurisdictions served, etc.
 - 5 Points Major impact (e.g., major multi-jurisdictional route, primary feed route to an Interstate, Federal Aid Primary routes)
 - 4 Points -

0

- 2 Points -
- 10) Has the jurisdiction enacted the optional \$5 license plate fee, an infrastructure levy, a user fee, or a dedicated tax for infrastructure?
 - 2 Points Two of the above
 - 1 Point One of the above
 - 0 Points None of the above

ADDENDUM TO THE RATING SYSTEM DEFINITIONS

CRITERION 1 - ABILITY TO PROCEED

The Support Staff will assign points based on:

- 1) Engineering experience
- 2) The information on the Additional Support Information, as verified where necessary.
- 3) The applicant's past SCIP/LTIP record of successfully projecting project schedules on similar types of projects.

If a project rating on this item is reduced by the Support Staff because of a questionable schedule, and still receives funding, the submitting jurisdiction will be permitted to amend the Project Schedule accordingly.

CRITERION 2 - CONDITION

Poor - Condition is dangerous, unsafe or unusable

Fair to Poor - Condition is inadequate or substandard

Fair - Condition is average, not good or poor

CRITERION 5 - ECONOMIC HEALTH

The following factors are used to determine economic health:

- 1) Median per capita income
- 2) Per capita assessed valuation of the total community real estate and personal property
- 3) Poverty indicators
- 4) Effective tax rates
- 5) Total corporate debt as a percentage of assessed valuation
- 6) Municipal revenues and expenditures per capita

CRITERION 9 - REGIONAL IMPACT .

Major impact - Primary water or sewer main serving an entire system

Moderate impact - Waterline or storm sewer serving only part of a system

Minimal impact - Individual waterline or storm sewer not part of a system
